

## **NEW PUBLICATIONS**

### **FAO Biotechnology News and Publications**

The Food and Agriculture Organization of the United Nations (FAO) has published a series of reports, papers, abstracts, proceedings of conferences and meetings on biotechnology and bio-safety aspects. FAO-BiotechNews contain news and event items that are relevant to applications of biotechnology in food and agriculture in developing countries. Its main focus is on the activities of FAO, of other United Nations agencies/bodies and of the 15 CGIAR research centers. FAO-BiotechNews are available at (<http://www.fao.org/biotech>).
